

Introducing an exclusive opportunity.

Only Schlage Primus XP gives you a patented key that ensures greater security for your buildings and people, while protecting against unauthorized key duplication. That's because Primus XP is designed with unique side bit milling that can only be duplicated by your Schlage Primus XP dealer, giving you a higher level of key control and building security.

Depending on the level of your security needs, and the size and scope of your facilities, we can help you determine which level of exclusivity is right for you.

Ingersoll Rand's Security Technologies Sector is a leading global provider of products and services that make environments safe, secure and productive. The sector's market-leading products include electronic and biometric access-control systems; time-and-attendance and personnel scheduling systems; mechanical locks; portable security; door closers, exit devices, architectural hardware, and steel doors and frames; and other technologies and services for global security markets.

SCHLAGE

PRIMUS XP

Only one key gives you complete control.

Only one key does it all.

PRIMUS XP

The security solution that fits every door in your building.

The Schlage Primus XP patented key system is a scalable system that you can use to control access with varying levels of security throughout your facilities. This simplifies your key management system by giving you just one key that's backward compatible and supports multiple cylinders.

- Conventional and interchangeable cores
- Supports all sizes of key system, from small to large, with multi-level key hierarchy where needed
- Fits most non-Schlage locks, eliminating costly and time-consuming hardware changes

Designed to fit every level of access control.

The scalable design of the Primus XP key system means that the system can be integrated into a multi-level security system that includes Schlage mechanical, electro-mechanical and networked security solutions. Primus XP also works with Falcon mechanical locks.

Schlage key systems are available in a variety of system types.

- Open
- Restricted
- Restricted patented
- High security

The industry's strongest support network.

Schlage has an in-field team of Key System Consultants dedicated to developing and implementing effective key control products and systems. The Schlage factory service team includes 440 sales consultants at 23 offices across the country. No other manufacturer offers this kind of support.

Backed by the best known name in the business.

For more than 85 years Schlage has been a leader in providing innovative, reliable and high quality security products and solutions. When you choose a Primus XP key system, you're choosing a solution that comes from one of the best known names in the security business.

Patented protected security.

Primus XP is patent protected until 2024, the longest patent in the market today. That means you'll get the highest level of security for the longest period of time. Combine the duration of patent protection with the exclusivity of our keyway and Primus XP adds up to one of the most cost effective security solutions available.
