

LM9200 Series

Two-point latch for wood or hollow metal doors

The Schlage LM9200 Series is an innovative one or two point latch solution for pairs of wood or hollow metal doors where both leaves need to be active. Instead of traditional concealed rods, the LM9200 utilizes concealed vertical cables—a proven technology that enables simple installation and maintenance. Furthermore, the LM9200 is based on the Schlage L Series mortise lock - a foundation built on unsurpassed reliability, flexibility, and performance.

Aesthetics are a key component of any project. Sectional (rose) trim offers the clean aesthetic preferred by most architects; the Schlage LM9200 is compatible with sectional trim as well as escutcheon trim. Furthermore, all the lever designs suite with the Schlage L mortise lock, Schlage LT tubular lock, and Von Duprin exit devices to ensure a consistent and stylish aesthetic throughout the facility. With the Schlage LM9200, you also never have to worry about unsightly metal wraps for fire protection or backer plates when used with wood doors.

The unique design of the Schlage LM9200 offers a number of advantages. Installation is simple - thread the cable through the door and insert into the lock body, then use the patented spool system to remove the cable slack. Automatically deadlatching top and bottom latches, and a top latch with greater than 90 degree strike engagement, work together to ensure the opening is robust and secure. The Schlage LM9200 Series is also available without the bottom latch for top latch only applications.

Key features

- Concealed vertical cables for easy installation and adjustment
- 13 functions (mechanical and electrical) for application flexibility
- 30 lever designs that suite with Schlage L mortise locks, Schlage LT tubular locks, and Von Duprin exit devices for a consistent aesthetic throughout the facility
- Compatible with both sectional (rose) and escutcheon trim
- Door compatibility
 - Non-firerated: Wood or hollow metal doors 6'8" - 10'0"
 - Fire rated wood doors: 6'8"-8'0", 60 minute rating (2pt latch), 20 minute (1pt)
 - Fire rated hollow metal doors: 6'8"-8'0", 90 minute fire rating (2 or 1 pt, double egress w/ astragal)
- Electrified lock offers 0.4 amp maximum current draw with 0.01 amp holding current; autodetecting 12/24V DC operation and customer-selectable EL/EU switch located on mortise case

Product detail

- 1** Latches are designed for optimized door prep, retaining the structural integrity of the door
- 2** Concealed vertical cables instead of rods for quick installation & adjustment
- 3** Accessible adjustment from edge of door
- 4** Self-adjusting bottom bolt that deadlocks in any adjustment position providing enhanced security

Option	Specify "LBL" for less bottom latch (product will latch in top only). See pricebook for additional options.				

* 612 and 613 finishes not available on Decorative M collection levers.

Product suiting

The Schlage LM9200 series is specifically designed to suite with the following products:

Von Duprin 98/99 exit devices Grade 1

Von Duprin created the first exit device in 1908, and continues to redefine the industry today with unsurpassed quality and industry-unique features such as concealed vertical cables. The 98/99 Series exit device is intended for standard-stile doors.

Schlage L Series mortise locks Grade 1

Schlage L Series locks have long been the industry standard for mortise locks, with a comprehensive offering of functions and options to support any opening need.

Von Duprin 33A/35A exit devices Grade 1

Offering the same innovative features as the 98/99, the 33A/35A Series is intended for narrow stile doors.

Schlage LT Series tubular locks Grade 2

The perfect complement to the Schlage L or LM Series and Von Duprin exit devices. The LT Series tubular lock provides a consistent look and feel at a lower price point for less demanding applications.
