

Wristband Credentials

Overview

Smart wristband credentials from Schlage® combine a smart solution with a wearable format. This credential offers convenience and secure access in a waterproof, silicone wristband, available in six colors. The smart wristband uses MIFARE Classic® technology with securely encrypted data, which is verified by both the credential and the reader, operates with 13.56 MHz frequency, and has 1K byte/8k bit of storage.

Features & Benefits

- Waterproof casing allows it to be worn in water
- Durable silicone protects against wear and tear
- Heat resistant, ideal for high temperature environments
- Easily fits an adult wrist
- Wearable - enabling easy access at all times
- Available in six colors to match your school or business
- Utilizes MIFARE Classic® smart technology
