

XE360™ Series

Wireless Mortise Lock

Overview

Building upon the innovation and reliability of Schlage electronic locks, the XE360 Series is the next generation of wireless locks from this trusted brand. The sleek design offers customers a solution that looks as good as it performs – at an affordable price point.

XE360 currently works within No-Tour or offline access control systems. Credential support includes smart, Bluetooth and NFC mobile¹.

The open architecture design of the XE360 allows it to be managed by Allegion software or be integrated into popular physical access control and Proptech systems through our [PACS Alliance](#) program. This enables customers to choose what best fits their requirements now and transition to another solution at any time.

The XE360 Series is also available as tubular or exit trim and suites with other Schlage families to provide a wide selection of attractive options to meet the requirements of nearly any opening.
