NOTE: ALL **BOLD** item(s) above have been updated from the previous releases

Who should update?

Allegion suggests that customers utilize the latest firmware release to take advantage of the latest functionality, bug fixes, and security enhancements. We strive to provide the best products and service for our customers.

Our latest firmware and software releases will allow the customer to get the most from their devices.

Specifically, all customers who would be interested in the following Recent Changes should update all the devices and mobile devices used at their site:

Recent Changes:

- Implemented a fix for Connection Issues for Gateways in ***IP Client Mode***
 - GWE's in IP Client Mode (IP behind a Firewall) will periodically ping the server for a response and will reset the WebSocket connection if no response occurs

- Firmware Downgrade available for GWEs manufactured ***before 6/25/21***
 - Gateways that were manufactured before 6/25/21 will now be able to downgrade to firmware releases prior to 8.0.0

NOTE: Gateways manufactured ***after 6/25/21*** will not be able to downgrade to releases prior to 8.0.0.
