NOTE: ALL **BOLD** item(s) above have been updated from the previous releases

Who should update?

Allegion suggests that customers utilize the latest firmware release to take advantage of the latest functionality, bug fixes, and security enhancements. We strive to provide the best products and service for our customers.

Our latest firmware and software releases will allow the customer to get the most from their devices.

Specifically, all customers who would be interested in the following Recent Change should update all the devices and mobile devices used at their site:

Recent Changes:

- Implemented a fix for scenarios where the GWE unit would disconnect at 5-10 minutes of operation
 - Upgraded libwebsockets to the latest version
- NOTE: This fix is for Client mode (IP behind firewall) GWEs only.
