NOTE: ALL **BOLD** item(s) have been updated from the previous releases

Who should update?

Allegion suggests that customers utilize the latest firmware release to take advantage of the latest functionality, bug fixes, and security enhancements. We strive to provide the best products and service for our customers.

Our latest firmware and software releases will allow the customer to get the most from their devices.

Specifically, all customers who would be interested in the following Recent Changes should update all the devices and mobile devices used at their site:

Recent Changes:

- Improved data retrieval from Locks by extending GWE's response time
- Implemented fix for Lock Manager crashes that could occur during Firmware Updates
- Improvements made for lock configuration transfers
- Improved continued web-socket connectivity in IP Client mode by accommodating self-sign certificates and hostname mismatches
- Implemented a system check to monitor lock manager's status and improve GWE HTTP request response
